Project Name	Credit Card Approval Prediction
Maximum Marks	2 Marks

Customer Journey Map

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Visits the web application. • Enters personal and financial details. • Checks credit card eligibility	• Reviews entered information. • Submits the application. • Waits for the prediction.	• Views approval/rejection result. • Reviews prediction details. • Decides on the next step.
Touchpoint <i>What part of the service do they interact with?</i>	• Home page • Eligibility form • Input fields	• Submit button • Processing page • Prediction engine	• Results page • Recommendation section • Support/contact page
Customer Thought <i>What is the customer thinking?</i>	• Am I eligible? • Do I meet the requirements? • Is my information sufficient?	• Will my application be approved? • Is the prediction accurate? • How long will it take?	• Why was I approved/rejected? • What can I improve? • What should I do next?
Customer Feeling <i>What is the customer feeling?</i>	Curious, hopeful, slightly anxious.	Nervous but optimistic.	Relieved if approved; disappointed but informed if rejected.

Process Ownership <i>Who is in the lead on this?</i>	customer	Customer & ML Prediction System	ML Prediction System & Bank
Opportunities <i>How can we improve this stage?</i>	• Provide clear eligibility guidelines. • Improve form usability. • Validate inputs instantly.	• Show application progress. • Reduce prediction time. • Ensure secure data handling.	• Explain prediction reasons. • Suggest ways to improve eligibility. • Enable re-evaluation after profile updates.
