

Communication

Date	15 JULY 2026
Team ID	
Project Name	AI-Based Credit Card Approval Prediction System
Maximum Marks	1Mark

Communication Plan:

S.No	Communication Type	Frequency	Channel/ Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp, Google Meet	All Team Member	Discuss daily tasks, project progress, and assign responsibilities.
2	Progress Update	Weekly	Google Meet, GitHub	Team Members & Project Guide	Review completed work, discuss milestones, and receive feedback.
3	Issue / Bug Discussion	As Needed	WhatsApp, GitHub Issues	Developers	Resolve coding issues, model errors, and integration problems.
4	Stakeholder Review	Bi-Weekly	Google Meet	Project Guide & Team	Demonstrate completed modules and collect suggestions for improvements.
5	Model Evaluation Meeting	Weekly	Google Meet	ML Team Members	Compare Logistic Regression, Decision Tree, Random Forest, and XGBoost performance to select the best model.
6	Final Demo Rehearsal	Once	Google Meet / Classroom	Entire Team	Practice the complete project demonstration before final evaluation.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty selecting the most accurate machine learning model.	Compared model performance using Accuracy, Precision, Recall, and F1-Score, then selected the best-performing model.
2	Compared model performance using Accuracy, Precision, Recall, and F1-Score, then selected the best-performing model.	Standardized input preprocessing and verified model loading using Pickle before deployment.
3	Standardized input preprocessing and verified model loading using Pickle before deployment.	Standardized input preprocessing and verified model loading using Pickle before deployment.
